

INTERSCOPE
PATHOLOGY

COMMITTED
TO
PATIENT CARE

INTERSCOPE

21114 VANOWEN STREET
CANOGA PARK, CA 91303

*We care about you
the way you care*

Interscope Pathology has been serving physicians and their patients in the Los Angeles area since 1975.

We are committed to you and your patients, and we understand that when

making a choice about what laboratory to use, accuracy, turn-around time and accessibility to a pathologist for consultation is imperative.

You, your staff, and your patients will receive unparalleled service from Interscope Pathology. You will get biopsies and PAP results in 24 to 48 hours, and our pathologists are available around the clock for consultation. Help with billing issues is provided to you and your patients by our own staff.

In our commitment to provide rapid turn-around time and accurate results, we use state of the art methodologies and equipment. Our skilled histotechnologists prepare high quality slides, which is the first step in arriving at an accurate diagnosis. We have assembled a team of pathologists with a wide range of experience and specialties to accurately diagnose the large variety of biopsies received by Interscope Pathology. Our team of experienced pathologists provide you with the information you need to manage your patients.

Our Professional Staff

ALAN S. BRICKLIN, M.D. - Co-Founder and Director of Interscope Pathology. Alan S. Bricklin, M.D., brings 30 years of experience as a Board Certified pathologist to the laboratory. He has a wide range of knowledge and his subspecialty interests are in Gastrointestinal and GYN pathology.

WILLIAM J. COLBURN, M.D. - Co-Founder and Director of Interscope Pathology. Dr. Colburn is a recognized expert breast pathologist. He was a co-founder of the Van Nuys Breast Center, established in 1981. This was the first facility of its kind, a free-standing full-service breast center. He has continued to be a leader in breast cancer pathology and has authored over 50 primary articles/abstracts and book chapters, as well as consulting on cases from breast centers across the country.

BRYAN T. LIN, M.D., Ph.D. - Director of Interscope Pathology. Dr. Lin joined the group in 1997 and has played an important role in providing a full spectrum of surgical pathology expertise and implementing new diagnostic procedures. Dr. Lin was fellowship-trained with leading breast and gastrointestinal pathologists at Beth Israel Hospital and Harvard Medical School. His subspecialty fellowship was at City of Hope, focusing on hematopathology and diagnosing head and neck, soft tissue and gynecologic cancers.
